Points on writing handwritten characters

Paying attention to the following points will ensure that handwritten characters are easily recognized.

- Write each individual stroke clearly to ensure each stroke is recognized.
- Write clearly and do not use short or conventional forms.
- Avoid writing sloping characters.
- Write lower case characters smaller to distinguish between identical characters. For example, "C" and lower case "c", or regular "支" and small "支", etc.
- Do not press hard when writing. Write with a light touch.

Entering characters using the handwriting pad

Parts and functions

The handwriting pad is set to enter characters when the cursor is in any part of the character entry area.

- Pressing the button switches the single-frame pad to the dual-frame pad.

Example: Enter a Japanese word "持つ" from a Japanese-English dictionary.

1. Press (English mode).
2. Press to move the cursor to the Japanese entry area.
3. The handwriting pad is now switched to enter kanji and kana.

3. Use the stylus to draw "持" in the handwriting area.

The character shown in the candidate list display area is also placed in the entry area so that the dictionary search can proceed.

4. If the character in the entry area is not the one you desired, use the stylus to touch and select the desired character in the list.

The character in the entry area changes.

When you start drawing, the previous entry is confirmed and then erased.

Example: Play back the audio using "英会話とっこひとと辞典".

1. Press (menu), use to select "英会話系1", and then use (or ) to select "英会話とっこひとと辞典".
2. Press until the details screen is displayed.
3. Press (mark recognition) and the mark becomes inverted ( ). Each time you press (mark recognition), the audio plays.

Selecting functions by touching

You can select various functions by touching the screen with the stylus. Let's use the Japanese-English dictionary to mark words.

1. Press (English mode).
2. Enter the word (Eg. "header") in the "スペル? " field, and press (mark recognition).
3. Touch the starting point "文" and drag to highlight the words up to the end point "マーカー".
4. Touch the function to execute ("マークマーカーを引きまします") (mark user-selected words).

The words are marked and registered in the word dictionary.

• To select a different function such as Audio or S-jump, select the desired function by touching it.
