

This package was debianized by Ivo Timmermans <ivo@debian.org> on
Fri, 3 Aug 2001 10:02:38 +0200.

It was taken over by Matthias Urlichs <smurf@debian.org>, and is now
maintained by Andreas Metzler <ametzler@debian.org> Eric Dorland
<eric@debian.org>, James Westby <jw+debian@jameswestby.net>

It was downloaded from <http://ftp.gnupg.org/gcrypt/libgcrypt/>.

Upstream Authors: Werner Koch and others.

Copyright:

Most of the package is licensed under the GNU Lesser General Public
License (LGPL) version 2.1 (or later), except for helper and debugging
binaries. See below for details. The documentation is licensed under
the GPLv2 (or later), see below.

Excerpt from upstream's README:

The library is distributed under the terms of the GNU Lesser
General Public License (LGPL); see the file COPYING.LIB for the
actual terms. The helper programs (gcryptrnd and getrandom) as
well as the documentation are distributed under the terms of the
GNU General Public License (GPL); see the file COPYING for the
actual terms.

This library used to be available under the GPL – this was changed
with version 1.1.7 with the rationale that there are now many free
crypto libraries available and many of them come with capabilities
similar to Libcrypt. We decided that to foster the use of
cryptography in Free Software an LGPLed library would make more
sense because it avoids problems due to license incompatibilities
between some Free Software licenses and the GPL.

Please note that in many cases it is better for a library to be

licensed under the GPL, so that it provides an advantage for free software projects. The Lesser GPL is so named because it does less to protect the freedom of the users of the code that it covers. See <http://www.gnu.org/philosophy/why-not-lgpl.html> for more explanation.

An example of the license headers of the LGPL is
